

Notes Regarding the Project STEM 2017 Application
Deadline: April 1

IMPORTANT: Interest in the 2017 program is very high and although April 1 is the final application deadline, we encourage all applicants to complete by March 1 .

Is Indy STEM the right program for you? Read over these other opportunities.

If you still have questions, you may contact Elmer Sanders at 317.514.3212 or
elmer.sanders@yahoo.com

Applying to Project STEM:

The Selection Committee communicates mostly by email. Please create an email account that you will use for your STEM application and your future college applications. I personally recommend Yahoo or Gmail, and I recommend dignified email names like john.smith@yahoo.com or jane.doe2013@gmail.com to be more professional than funky.monkey@aim.com

Application Part 1: General Information. *These notes relate to the questions on the General Information form at <https://is.gd/STEM2017>*

Activities Profile. If you are not sure if you have participated in these programs, you may visit their websites to find additional information.

MEPI, Minority Engineering Program of Indianapolis
www.mepi.org

NOBCCChE stands for the National Organization (for the professional advancement of) Black Chemists and Chemical Engineers. Dr. Paul Ardayfio from Eli Lilly leads the Indianapolis chapter and they have several outreach programs, including CPA, the College Preparatory Academy.

Essay / Short Answer Questions: Please answer the short answer questions to the best of your ability. There is not a right or wrong answer but please represent yourself accurately.

Feb 12 update.

Those who complete General Information, part 1 of the application, by midnight Friday will receive an email confirmation on Saturday, together with the links for the remaining parts of the application. I sincerely apologize that the automatic confirmation feature was deactivated when the application went live.

Thank you!

Elmer Sanders
Program Coordinator
