

Indiana CTSI Project STEM

*Developing the pipeline of future scientists through support for the Project SEED¹, Project STEM² and FSP³
High School Summer Research Internship Programs*

Cordially invites all Indianapolis Area High School Students to the

2019 Indianapolis Project STEM Required Student and Parent Informational Meeting

**Saturday March 9, 2019
9am – 10:15am**

IUPUI Campus Center, Basement Auditorium

*Please see location, directions and parking details on last page. You may print last page directions at
www.IndianaProjectSTEM.org/march9.pdf*

We strongly encourage all student applicants to come with their parents. If the student has a substantial pre-existing commitment, it is very important that a parent representative attend this meeting. There are separate registration tables, one for students and one for parents. Please register at corresponding table.

Recommending Teachers are encouraged to attend to learn more about STEM opportunities for students and compensated opportunities for teachers.

Presenting also at this meeting will be other STEM education outreach programs directors from the Indiana University Simon Cancer Center FSP and SRP, Science Innovations YiQ, IU-HCOP, INDA/NEST, and NOBCCHE. For information on these other programs please visit www.IndianaProjectSTEM.org/stem.pdf

Further details continue on page 2.

¹Project SEED is an outreach program of the American Chemical Society started in 1968 to encourage students from economically disadvantaged families to explore careers in science. The Indianapolis Project SEED was established in 1973 at the School of Medicine and continues as one of the largest and longest serving programs in the nation. Info at www.IndyProjectSEED.org

²The Project STEM program was established to serve additional students regardless of economic background, providing opportunities for research internships in a full spectrum of STEM related disciplines. Indianapolis (IUPUI) program info at www.IndyProjectSTEM.org.

³The Future Scientist Program (FSP) is an educational outreach program of the IU Simon Cancer Center specific to high school juniors from the Indianapolis Public Schools. Info at www.cancer.iu.edu/future

The Indiana CTSI networks all major Indiana research institutions and supports the Indianapolis programs through the IUPUI School of Education. Info at www.IndianaCTSI.org

2019 Project STEM, March 9, 9:00 am IUPUI Campus Center, Basement Auditorium

IMPORTANT: It is the responsibility of campus guests to follow posted guidelines on parking lots. Project STEM will provide parking validation tickets **ONLY** for those who park at the Vermont Street Parking Garage. Project STEM is not responsible for tickets or towing fees incurred for parking elsewhere.

Campus map available at: <http://www.iupui.edu/about/maps/campusmap.html>

***Location and Parking:** The IUPUI Campus Center is located at 420 North University Boulevard, Indianapolis, IN 46202.

Because of construction on Michigan Avenue, please enter the IUPUI campus on New York Avenue coming from West Street, go one block past University Blvd and turn right on Patterson Street. Go through the open parking lots, stop and cross Vermont Street into the Vermont Street parking garage Visitor section. Keep the white parking card to get out of the lot. At the meeting, you will receive a yellow validation card that you can use as payment. The Campus Center is the building next door at the corner of Vermont Street and University Boulevard. Proceed to the Theater Auditorium on the Basement Level.

Click this Google Map with Campus Center and Garage highlights to map out your trip.
